Study Material

Goal & Time

Objectives:

At the end of this chapter learners will be able to

- Know the right way to set SMART Goals
- Know the methods to save time for better personal, social & professional life.
- Understand the proper usage of Time Grid

Goal Setting:

Goal Setting involves the development of an action plan designed to motivate and guide a person or group toward a goal. Goal setting can be guided by goal-setting criteria (or rules) such as SMART criteria. Goal setting is a major component of personal, development and management literature.

Why set Goals?

Top-level athletes, successful business-people and achievers in all fields set goals. Setting goals gives you a long-term vision and short-term motivation. It focuses your acquisition of knowledge, and helps you to organize your time and your resources so that you can make the very most of your life. By setting clear, clearly defined goals, you can measure and take pride in the achievement of those goals, and you'll see forward progress in what might otherwise have seemed a long pointless grind. There will be a raise in the Self-confidence, and your ability and competence in achieving the goals that have been set.

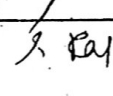

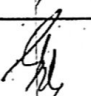

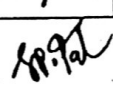

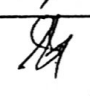

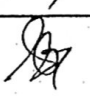

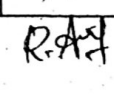

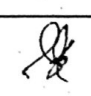

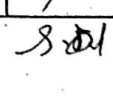

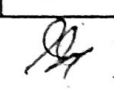

SMART Goals

Specific: A specific goal has a much greater chance of being accomplished than a general goal. To set a specific goal you must answer the six "W" questions:
